J.S. BACH

Sonata & Partita for Solo Violin

With technical indications and comments by Georges Enescu, collected and edited by Serge Blanc.

During the years of instruction he received from Maestro Georges Enescu, Serge Blanc noted and collected technical and interpretive indications for what Enescu called "The Himalayas of violinists": the Sonatas & Partitas for solo violin by Johann Sebastian Bach.

This exceptional document brings together these notes which concern sonority, phrasing, tempo, fingering, and expression. It is the culmination of the life's work of a master considered as one of the greatest interpreters of this work.

After having taught his own students for more than half a century, Serge Blanc wished to pass on to future generations of violinists the valuable guidance of Georges Enescu by collecting and commenting on his notes.

The complete document including Sonatas & Partitas BWV 1001 to BWV 1006, as well as Serge Blanc's recordings with Enescu, are available for free download at www.sergeblanc.com

Preface

It is common knowledge that the **Sonatas and Partitas for Solo Violin of JS Bach** were the daily bread of George Enescu, as they are for any musician who recognizes their value and necessity to their culture.

He considered these masterpieces as «the Himalayas of violinists» of which he was one of the greatest of the twentieth century!

He studied and taught this music all his life, both as a great performer with his reflection on all the technical problems posed by these particularly difficult works, but especially from the point of view of the brilliant composer that he was, understanding as well what this music expressed from the greatest musician of all time: JS Bach!

It was first and foremost necessary for Georges Enescu to transmit to future generations the wealth of his research, artistic, cultural and technical, that he had carried out and tested through his own magnificent career as a violinist alongside the career which mattered most to him, composer.

Once Georges Enescu returned to France in 1947 and decided to give lessons again, I had the opportunity to take them for five years, after which he offered me the unique opportunity to give a recital of the Sonatas with him at the piano! It was the chance of a lifetime.

During those five years, I had collected an enormous amount of his teachings, especially regarding what he considered the essential of musical culture: JS Bach!

I could not imagine at the time that the treasure he had passed to me, and to all his students (whom he modestly called his «colleagues»!), would serve me all my life as a musician... because it is only through experience that we understand what is contained in these works essential to the culture of any musician who plays a string instrument (violin, viola or cello).

It is no coincidence that all the great artists playing these instruments have spent their lives studying and playing these pieces throughout their careers... indeed reediting them in their own manner. But though Georges Enescu played, taught, and recorded them often... there is unfortunately no edition revealing his precise indications and his abundant comments!

One should be aware of the hardships that faced him at the time; he was over sixty years old and suffered from a serious disease of the spinal column, and he had lost at the same time all his possessions and his beloved homeland: Romania!

During the 55 years that followed, I continued thinking about the precious fruits of the education that I had received from this great master, learning how to pass on in my turn what I had received, passing on to each of my students the information that he had generously given to me in order to help them understand and interpret these pieces.

Proper tone, phrasing, musicality expressed in an artistic or intimate way, are the results obtained through a strict application of information and commentary gathered by patience and fierce determination!

For example concerning tempi advised by Enescu and shown at the beginning of each piece in this edition, he established these according to the indications given by the hand of JS Bach.

This single indication is essential... but is not in any edition. But when a young student (or teacher!) approaches these works for the first time, they cannot have this knowledge innately... Only later experience will eventually allow them to make their own interpretation and personal changes, having first understood the essential foundation thanks to proven sources.

It is the precious inheritance received by George Enescu that justifies the title **Educational Edition** that I have chosen.

A handwritten signature in black ink, reading "Serge Blanc". The signature is written in a cursive style and is positioned above a horizontal line that spans the width of the signature.

Serge Blanc

Sonata III

BWV 1005

ADAGIO

♩ = 40

JS Bach is one who knows the secret of restoring calm after the storm!

This slow Adagio prelude (marked ♩ = 40 but it is a good idea to begin working at ♩ = 80 before really thinking in 3/4) is as cool as can be... Enescu compared the repetitive rhythmic structure to the columns of the Parthenon.

The performer of this difficult prelude (one of many difficult pieces in this collection of technical achievements) of lush chords constantly modulating from key to key, should not let show any effort and let the most tranquil ecstasy prevail.

It is necessary then to be an absolute master of polyphonic technique.

Only extensive work focused on both the greatest accuracy of the often-subtle intervals and the maintaining of an imperturbable tempo, as well as suppleness in the bow changes, can overcome these technical difficulties. But at the moment of performance it is the phrasing that will become the obvious primary concern!

Here again, one must always seek to bring out the melody by favoring bow pressure on the relevant string.

In measure 18 one must invert the chords to bring out the bass.

In measures 20 and 22-23 it is the middle voices which must be brought out, as well as in 27, 28, 29, etc.

The few trills must, according to the general tempo, be slow and must not exceed two or three beats.

The last three measures, a CODA, end on a crescendo that showcases the last dominant chord that leads to the great **Fugue** that follows.

Handwritten musical score for Sonata III, BWV 1005. The score is written in treble clef with a 3/4 time signature. It begins with the tempo marking 'Adagio' and a quarter note equal to 40 beats. The first staff starts with a piano (*p*) and 'dolce' instruction. The second staff has a forte (*f*) dynamic. The third staff has a piano (*p*) dynamic. The fourth staff has a forte (*f*) dynamic and 'SOSTENUTO' marking. The fifth staff has a piano (*p*) dynamic and 'SOSTENUTO' marking. The sixth staff has a piano (*p*) dynamic and 'SOSTENUTO' marking. The seventh staff has a forte (*f*) dynamic. The eighth staff has a forte (*f*) dynamic. The ninth staff has a forte (*f*) dynamic. The tenth staff has a forte (*f*) dynamic and 'CODA' marking. The eleventh staff has a forte (*f*) dynamic. The score includes various musical notations such as slurs, ties, and dynamic markings.

Sonata III

BWV 1005

FUGA

♩ = 66

As with the two previous **Fugues**, this one starts with a simple theme of an upbeat and 4 measures in C major that Georges Enescu played « martelé léger » in the middle of the bow, which he termed « détaché d'orgue », and which will be used throughout, more or less **f**... or **p**.

At the upbeat to measure 5 the upper voice enters. They continue together until measure 10 where the soprano and then the bass voice enter. These four voices eventually develop the theme together until measure 20 where we arrive at G major.

Here begins the first episode based on the initial thematic cell, until the return of the theme at measure 24 in the bass, which we will strive to bring out by inverting the chords.

In measure 30 we will emphasize the middle voice until 34 where the motive will develop in a “divertissement” varied in turn in each voice. We must bring out each entrance with a slight emphasis.

This divertissement will evolve through various repetitive phrases, ascending or descending, until the return of the opening theme in measure 92 where its motives are distributed this time from voice to voice alternately.

It is up to the performer to bring out these passages by emphasizing the proper voice. This requires great concentration.

It would be inutile and tedious to follow this measure by measure analysis with a literary description. One who has understood up to here will continue with instrument in hand to the end.

Watch out for the inversion of the theme in measure 201 indicated by the composer himself.

To hold the listener's attention do not hesitate to support the ascending or descending phrases by emphasizing them with dynamics.

FUGA $P=66$

This musical score is for a fugue, marked with a tempo of $P=66$. It consists of ten staves of music, each beginning with a measure number: 1, 6, 12, 18, 24, 30, 36, 41, 46, and 51. The notation is in treble clef with a key signature of one sharp (F#). The music features a complex rhythmic pattern, primarily consisting of eighth and sixteenth notes, with various rests and ties. Dynamic markings include accents (\vee) and a crescendo (*cresc.*) starting at measure 41. The score is written in a single system, with each staff representing a different voice or part of the fugue.

Musical staff 1: Treble clef, starting at measure 278. Features a melodic line with eighth and sixteenth notes and a bass line with chords. Fingerings 1, 2, 1, 1 are indicated above the first few notes. A '2' is written below the bass line in measures 279 and 280.

283

Musical staff 2: Treble clef, starting at measure 283. Continues the melodic and harmonic material. A '2' is written below the bass line in measure 284.

288

Musical staff 3: Treble clef, starting at measure 288. Includes a dynamic marking 'f' (forte) at the beginning. The bass line features a series of chords.

295

Musical staff 4: Treble clef, starting at measure 295. Features a melodic line with a slur and a 'y' marking above it. The bass line has chords.

302

Musical staff 5: Treble clef, starting at measure 302. Continues the melodic and harmonic material.

308

Musical staff 6: Treble clef, starting at measure 308. Includes a 'u' marking above the staff in measure 310. The bass line has chords.

314

Musical staff 7: Treble clef, starting at measure 314. Includes a 'u' marking above the staff in measure 316. The bass line has chords.

320

Musical staff 8: Treble clef, starting at measure 320. Includes 'v' markings above the staff in measures 321 and 322. The bass line has chords.

326

Musical staff 9: Treble clef, starting at measure 326. Features a melodic line with eighth notes and a bass line with chords.

331

Musical staff 10: Treble clef, starting at measure 331. Includes a '1' marking above the staff in measure 332. The bass line has chords.

Sonata III

BWV 1005

LARGO
♩ = 48/52

Once again, JS Bach shows how to restore calm after the storm.

This slow piece is imbued with the greatest serenity and its tempo indication, the slowest in music, will not exceed ♩ = 48/52 metronome.

We must therefore adopt subtle nuances and a barely audible vibrato and, when they occur, very slow trills of just two beats.

Take time to breathe between phrases by observing the signs  or  indicating the beginning or the end of musical phrases.

As always, the slow tempo will be respected from the beginning to the end of this sublime meditation.

ALLEGRO ASSAI
♩ = 110

As its title suggests, this is a very happy finale that contrasts with the previous Largo.

The dynamics **f** and **p** asked for by the composer, as well as the diverse bowing, legato or détaché, attest to the quick and happy character always in the bright tonality of C major.

Keep the bow « à la corde » with a very supple wrist during the bariolages, where one can place accents to bring out the melodic or rhythmic line in this very enthusiastic finale!

Conclusion in the form of ACKNOWLEDGMENT

I am fully aware of what it means to boldly approach so closely two prestigious personalities like Jean-Sebastian Bach and George Enescu.

The first has been recognized for so long and everywhere as a Demi-God-Creator of music, and the second as the greatest interpreter of the **Sonatas and Partitas for Solo Violin**.

Having had the exceptional good fortune to work with Enesco for 5 years I always knew that he was offering me such a precious message that I immediately wrote down even the smallest detail with care... and I studied this and passed it to my students for 60 years...

I became aware during my participation of the Symposium of Bucharest for the 50th anniversary of his death that I had a duty to future generations of violinists to share Enescu's guidance, which I had jealously preserved for so long.

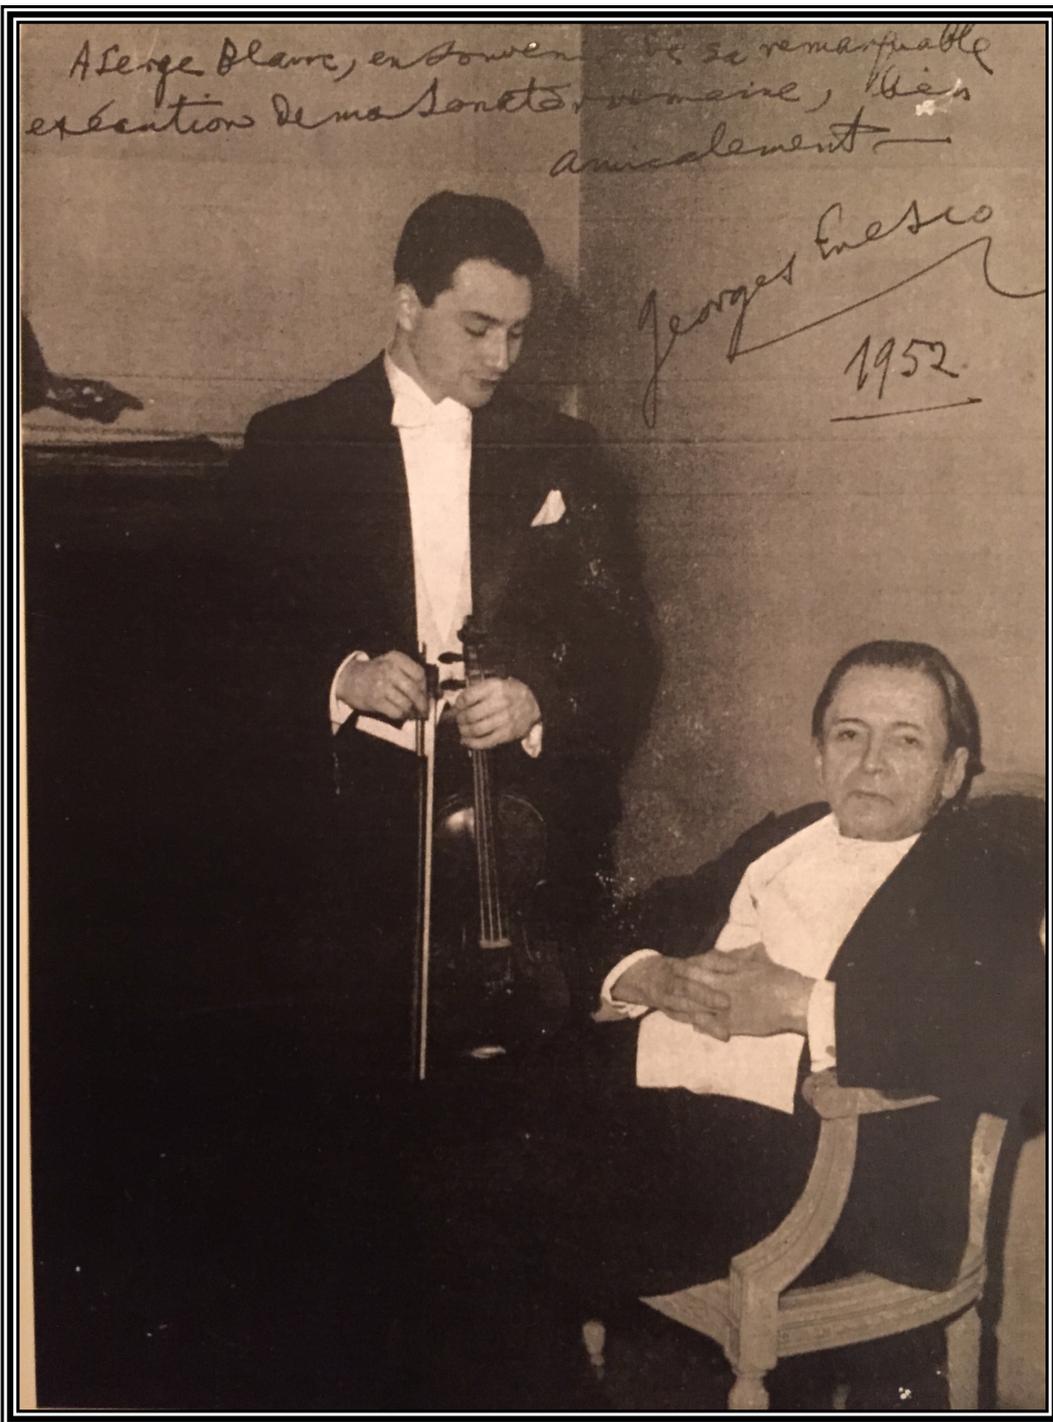

Having been unable to do this himself due to circumstances, I understood it was imperative to do so in his place before the information was lost forever.
