Arpeggien.

Das Arpeggio ist ganz entschieden eine der schönsten Wirkungen, die man auf der Mandoline hervorbringen kann. Es besteht darin, daß man die Töne eines Akkords nacheinander durch 3 oder 4 Plektrumschläge nach unten und ebenso durch 3 oder 4 Plektrumschläge nach oben spielt, jenachdem es sich um ein Arpeggio von 3 oder 4 Noten handelt.

Man muß also durch einen Plektrumschlag nach unten mit der tiefsten Note des Akkords beginnen und das Plektrum über die anderen Noten des Akkords gleiten lassen, dann wendet man die Hand leicht und gleitet wieder mit dem Plektrum in entgegengesetzter Richtung über die Saiten, d.h. von der höchsten bis zur tiefsten Note des Akkords.

Beispiel:

Der Schüler muß sich bemühen, ein möglichst gleichmäßiges Arpeggio herauszubekommen. Er muß hauptsächlich vermeiden, daß zwischen dem letzten Plektrumschlag nach unten und dem ersten nach oben eine Pause entsteht.

Falsch:

Steht vor einem Akkord das Zeichen $\{\}$, so soll arpeggio gespielt werden, d.h. die Töne des Akkords sollen nacheinander und nicht gleichzeitig gespielt werden.

Des Arpèges.

L'arpège est sans conteste un des plus beaux effets qu'on puisse obtenir sur la Mandoline, et consiste dans l'exécution d'une série d'accords, par 3 ou 4 coups de plectre successivement en bas, et 3 ou 4 successivement en haut, selon qu'il s'agit d'un arpège de 3 ou 4 notes.

Il faut donc attaquer la note plus grave de l'accord avec un coup de plectre en bas et glisser le plectre sur les autres notes qui forment l'accord, ensuite en retournant légèrement la main on glisse de nouveau le plectre en sens contraire c'est à dire de la note la plus élevée à la plus grave de l'accord.

Exemple:

L'élève devra s'efforcer d'obtenir un arpège le plus égal possible il devra donc éviter qu'il y ait une interruption entre le dernier coup de plectre en bas et le premier en haut.

Mauvais:

Lorsque un accord est précédé du signe $\{\}$, il faut l'arpéger, c'est à dire exécuter les notes qu'il compose, successivement et non simultanément.

The Arpeggios.

The arpeggio is without doubt one of the finest effects to be had on the mandoline. It is a series of chords reproduced by 3 or 4 successive down strokes and then by 3 or 4 successive up strokes according as the arpeggio has 3 or 4 notes.

The lowest note must be struck with a down stroke and then the plectrum glides onto the other notes, then lightly turning round the hand, the plectrum is slid in the opposite direction, i.e. from the highest to the lowest note.

Example:

The pupil must try to get an arpeggio as smooth as possible and avoid a break between the last down stroke and the first up stroke.

Degli Arpeggi.

L'arpeggio è incontestabilmente uno dei più belli effetti che si possano ottenere sul mandolino, e consiste nell'esecuzione di una serie di accordi mediante 3 o 4 colpi di plettro successivamente in basso, e 3 o 4 successivamente in alto, secondo che si tratti di un arpeggio di 3 o 4 note.

Si deve dunque eseguire la nota più grave dell'accordo con un colpo di plettro in basso e strisciare poi il plettro sulle altre note che formano l'accordo; quindi, rivoltando leggermente la mano, strisciare di nuovo il plettro in senso contrario, cioè dalla nota più alta alla più grave dell'accordo.

Esempio:

L'allievo dovrà sforzarsi di ottenere un arpeggio il più omogeneo possibile. Dovrà dunque evitare che vi sia un'interruzione tra l'ultimo colpo di plettro in basso e il primo in alto.

Cattiva esecuzione:

When a chord is preceded by the sign $\{\}$ it is an arpeggio, i.e. the notes must be played successively instead of simultaneously.

Quando l'accordo è preceduto dal segno $\{\}$ si deve arpeggiare, cioè le note che lo compongono devono eseguirsi successivamente, e non simultaneamente.

In der folgenden Übung sind die kleinen geschriebenen Noten er Begleitung mit dem Plektrum zu spielen.

Die kleinen abgestoßenen Noten sind schnell zu schlagen, damit sie die Melodie nicht unterbrechen, während die geudenen Noten mit anhaltendem Tremolieren zu spielen sind.

Dans l'exemple suivant les petites notes d'accompagnement s'exécutent avec le Plectre.

Celles en détaché doivent être attaquées rapidement de façon à ne pas interrompre la Mélodie et celles liées, en tremolo bien soutenu.

In the following example the small accompanying notes are played with the plectrum.

The small staccato notes must be quickly struck so as not to interrupt the melody and the slurred notes given in sustained tremolo.

Nell'esempio seguente le piccole note d'accompagnamento si eseguiscono col plettro.

Le notizine staccate devono eseguirsi rapidamente in modo da non interrompere la melodia, e quelle legate con tremolo ben sostenuto.

Andante cantabile.

(1) Die Fuge ist eine musikalische Komposition, deren verschiedene Stimmen nacheinander das Thema in Variationen wiederholen, die der Eigenart des Instrumentes angepaßt und im sogen. imitierenden Stil und nach bestimmten Regeln entwickelt sind.

Eine Fuge besteht aus dem Thema, der Antwort, dem Gegen- satz, dem Zwischenspiel, der Eng- führung und dem Schluß oder der Coda.

(1) La fugue est une composition musicale où les différentes parties se succèdent en répétant le même thème avec des variations adaptées à la nature de l'instrument, et développées par imitation et d'après des règles précises.

La fugue se compose du sujet, de la réponse, du contre-sujet, l'épisode, la strette, et la coda ou conclusion.

Natürliche Flageolett-Töne.

Setzt man den 3. oder 4. Finger leicht auf die folgenden Noten, so erhält man natürliche Flageolett-Töne. Man bezeichnet diese Töne durch das Zeichen (o)

4.Saite 3.Saite 2.Saite 1.Saite
4ème Corde 3ème Corde 2ème Corde 1ère Corde
4th string 3rd string 2nd string 1st string
4^a Corda 3^a Corda 2^a Corda 1^a Corda

Während man die Flageolett-Töne auf der Violine anhalten und binden kann, bringen sie auf der Mandoline nur dann eine schöne Wirkung hervor, wenn sie abgestoßen gespielt werden.

Die Schwingungen lassen sich jedoch dadurch verlängern, daß man leicht über die Saiten fährt und den Finger sofort wegnimmt.

Die folgenden Töne erzeugen als Flageolett-Töne gespielt viel höhere Noten und werden durch das Zeichen ♪ bezeichnet.

Sons harmoniques naturels.

En posant légèrement le 3^{ème} ou 4^{ème} doigt sur les notes suivantes, on obtient des sons harmoniques naturels, qu'on indique par le signe (o)

Natural Harmonics.

By lightly placing the 3rd or 4th finger on the following notes natural harmonics are produced which are indicated by the sign (o)

4.Saite 3.Saite 2.Saite 1.Saite
4ème Corde 3ème Corde 2ème Corde 1ère Corde
4th string 3rd string 2nd string 1st string
4^a Corda 3^a Corda 2^a Corda 1^a Corda

Tandis qu'au Violon les sons harmoniques peuvent être soutenus et liés, à la Mandoline ils ne produisent un bel effet que lorsqu'ils sont exécutés en détaché.

On obtient cependant une prolongation des vibrations en effleurant légèrement la corde et en retirant immédiatement le doigt.

Les sons suivants pris harmoniquement, produisent des notes beaucoup plus élevées et s'indiquent par le signe (d)

While on the violin the harmonics may be sustained and slurred, on the mandoline they only sound well in staccato.

The vibrations may be prolonged by lightly skimming over the string and immediately withdrawing the finger.

The following sounds taken harmonically, produce much higher notes and are indicated by the sign (d)

Suoni Armonici naturali.

Posando leggermente il 3º o il 4º dito sulle note seguenti, si ottengono dei suoni armonici naturali che s'indicano con il segno (o)

4.Saite 3.Saite 2.Saite 1.Saite
4ème Corde 3ème Corde 2ème Corde 1ère Corde
4th string 3rd string 2nd string 1st string
4^a Corda 3^a Corda 2^a Corda 1^a Corda

Mentre col violino i suoni armonici possono essere sostenuti e legati, col mandolino, non producono un bell'effetto che quando sono eseguiti in staccato.

Nondimeno si può ottenere un prolungamento delle vibrazioni sfiorando leggermente la corda e ritirando immediatamente il dito.

I suoni seguenti presi armonicamente producono delle note molto più elevate e s'indicano con il segno (d)

4.Saite 3.Saite 2.Saite 1.Saite 4.Saite 3.Saite 2.Saite 1.Saite
4ème Corde 3ème Corde 2ème Corde 1ère Corde 4ème Corde 3ème Corde 2ème Corde 1ère Corde
4th string 3rd string 2nd string 1st string 4th string 3rd string 2nd string 1st string
4^a Corda 3^a Corda 2^a Corda 1^a Corda 4^a Corda 3^a Corda 2^a Corda 1^a Corda

Diese zweite Art von Flagiolett-Tönen notiert man, indem man über ihnen die wirklichen Töne in kleiner Notenschrift angibt.

Cette deuxième catégorie des sons harmoniques s'écrit en leur superposant en petites notes les sons réels.

This second category of harmonics is written by placing above them the real sounds in small notes.

Questa seconda categoria d'armonici si scrive superponendo in piccole note i suoni reali.

Allegretto.

Künstliche Flageolett-Töne bildet man auf der Violine, indem man den 1. Finger fest aufsetzt und mit dem 4. Finger die Saite leicht auf der Stelle berührt, wo die Quarte liegt. Diese künstlichen Flageolett-Töne sind jedoch für die Mandoline nicht zu empfehlen, da sie nicht genügend tragen.

Diejenigen Spieler, die im Besitz einer Mandoline mit Konzert-Griffbrett sind und gern eine Passage von künstlichen Flageolett-Tönen spielen möchten, können unmittelbar die eigentlichen Töne greifen, die um ein Zwölftel höher sind als die leicht berührte Quarte.

Ann. Das Zeichen 8^{ta} bedeutet, daß die Noten, über denen dies Zeichen steht, eine Oktave höher gespielt werden sollen. Das Wort *loco* hebt dieses Zeichen wieder auf.

Les sons harmoniques artificiels qui s'obtiennent au Violon en appuyant le 1^{er} doigt et en effleurant la corde avec le 4^{me} doigt et à la distance d'une quarte l'un de l'autre, ne sont pas à conseiller à la mandoline, ne produisant pas une sonorité suffisante.

Les exécutants qui possèdent une mandoline avec un clavier de concert, et qui voudraient rendre un passage des sons harmoniques artificiels, pourront exécuter directement les notes réelles qui sont la douzième haute de la quarte effleurée.

N.B. Le signe 8^{ta} indique que les notes au dessus desquelles il se trouve doivent être jouées une octave plus haut. Le mot *loco* annule l'effet de ce signe.

Artificial Harmonics. These are produced on the violin by putting the first finger firmly down and with the fourth finger slightly touching the place of the perfect fourth. These are not advisable for the mandoline as they do not produce sufficient fulness of tone.

Players who have a concert-board and wish to give a passage with artificial harmonics can at once play the real notes which are a twelfth higher than the lightly touched fourth.

N.B. The sign 8^{ta} shows that the notes above which it is written must be played an octave higher. The word *loco* annuls the effect of this sign.

I suoni armonici artificiali, che si ottengono sul violino appoggiando il 1^o dito e sfiorando la corda col 4^o dito e alla distanza di una quarta l'uno dall'altro, non sono da consigliarsi per il mandolino, non producendo una sonorità sufficiente.

Gli esecutori che possiedono un mandolino con una tastiera da concerto vogliono produrre un passaggio di suoni armonici artificiali, potranno direttamente eseguire i suoni reali che corrispondono alla decima alta della quarta sfiorata.

N.B. Il segno 8 indica che le note al disopra delle quali si trova devono essere suonate un'ottava più alta. La parola *loco* annulla l'effetto di questo segno.

Der Mandolinenbau hat in den letzten Jahren bedeutende Fortschritte gemacht, so hauptsächlich in bezug auf das Griffbrett, das gegenüber dem alten System um eine Oktave verlängert worden ist. Dadurch wird es möglich gemacht ganze Stücke zu spielen, die ursprünglich für Violine geschrieben sind, aber sich sehr gut für Mandoline eignen. Ja, es gibt sogar Kompositionen von Bériot, Vieuxtemps und anderen berühmten Meistern, von denen man glauben könnte, daß sie für Mandoline komponiert seien.

Die folgenden Übungen sollen vor allem den Schüler mit den Noten vertraut machen, die über die 7. Lage hinaus liegen.

La fabrication de la Mandoline a fait depuis quelques années de notables progrès surtout en ce qui concerne le clavier, dont le prolongement d'une octave sur l'ancien système permet l'exécution intégrale d'oeuvres très importantes écrites pour le Violon, et qui s'adaptent admirablement bien à la Mandoline. Il ya en effet des compositions de Bériot et de Vieuxtemps qu'on pourrait croire conçues pour cet instrument.

Les exercices qui vont suivre ont pour but principal de familiariser l'élève aux notes qui dépassent la 7^{ème} Position.

The manufacture of the mandoline has made great progress in recent years, especially of the fingerboard. It has been made an octave longer which makes it possible to play entire pieces set for the violin but which are admirably suited to the mandoline. Indeed one might think that some of Bériot's and Vieuxtemps' compositions had been written for the mandoline.

The following exercises are meant to accustom the pupil to notes beyond the 7th position.

La fabbricazione del mandolino ha fatto da qualche anno in qua dei notevoli progressi, soprattutto in ciò che concerne la tastiera il cui prolungamento di un' ottava sull'antico sistema permette l'esecuzione integrale di pezzi importantissimi scritti per il violino e che si adattano ammirabilmente al mandolino. Effettivamente vi sono delle composizioni di De Bériot, di Vieuxtemps e di altri celebri compositori che si potrebbero credere concepite per questo strumento.

Gli esercizi seguenti hanno per scopo principale di familiarizzare l'allievo alle note che oltrepassano la 7^a posizione.

Sheet music for violin and piano, page 86, Allegro moderato. The music is arranged for Violin (top two staves) and Piano (bottom two staves). The Violin part uses fingerings and bowing markings. The Piano part includes dynamic markings like *mf*. The score consists of ten staves of music, each with a different fingering or bowing pattern. The piano part includes a section labeled "2ème Cordé". The music is in common time.

Adagio.

The image shows a horizontal strip of sheet music for piano. It features a treble clef, a key signature of one sharp, and a common time signature. The music consists of two staves. The left staff begins with a melodic line starting at the top of the staff, moving down through various notes and rests. Fingering is indicated above the notes: 'V' with '4' over the first note, '3' over the second, '1' over the third, '3' over the fourth, '1' over the fifth, '2' over the sixth, and '4' over the seventh. A bracket labeled 'III' covers the notes from the second to the eighth. The right staff continues the melodic line with a series of eighth and sixteenth notes. Fingering here includes 'I' over the first note, '2' over the second, '3' over the third, '4' over the fourth, and '0' over the fifth. A bracket labeled 'II tr.' covers the notes from the second to the eighth. The music concludes with a final measure consisting of a single eighth note followed by a fermata.

Musical score for piano, measures 2-4:

- Measure 2: Treble staff starts with a forte dynamic (f) and a sixteenth-note pattern. Bass staff follows with a sixteenth-note pattern.
- Measure 3: Continues with a sixteenth-note pattern in both staves.
- Measure 4: Starts with a forte dynamic (f). Treble staff has a sixteenth-note pattern. Bass staff has a eighth-note pattern. Measures 2-4 end with a repeat sign and a double bar line.

Sheet music for piano showing measures 1 through 8. The music is in common time, treble clef, and includes dynamic markings like 'forte' and 'pianissimo'. Fingerings are indicated above the notes, and a pedaling instruction 'restez' is shown at the end of measure 8.
