Rosetta Stone

open score for trio

Jordan Nobles

Dedicated to John Cage

DETAILS:

Rosetta Stone was completed in June 2016 in North Vancouver, BC.

PROGRAMME NOTES

Rosetta Stone was inspired by the ancient black granite stele inscribed with a decree from King Ptolemy I in three different scripts. It is essentially the same text, with only minor differences, written out in three different languages. Since some of the stone was missing and the text incomplete, it took a few decades to decipher, but eventually the stone provided the key to an understanding of Egyptian hieroglyphs.

I've written numerous pieces with all of the harmonies and melodies composed but a great deal of flexibility offered to the performers with respect to the rhythms and exactly when to play the given harmonic material. With *Rosetta Stone* I set about to reverse that and to prescribe exact rhythms but leave the pitches free to be spontaneously decided during performance (much like in **Louis Andriessen's** *Worker's Union*, or many of the aleatoric works of **John Cage**).

Similar to the actual Rosetta Stone, the three performers have essentially the same material, in the form of an almost perfect canon, but they each choose, in the moment, their own 'language'.

It is dedicated to John Cage, who provided the key to so many new areas of exploration.

DURATION:

The duration of *Rosetta Stone* is variable. Certain sections (**A, B, D, F**, etc.) can be repeatedly as many times as desired therefore leaving the duration of performance anywhere from 3 or 4 minutes to somewhat longer. Also a Section or Sections can even be skipped entirely if desired.

PERFORMANCE NOTES:

INSTRUMENTS:

Rosetta Stone is designed to be played by 3 SIMILAR instruments i.e. 3 marimbas (or 3 players on one marimbas), 3 guitars, 3 pianos, string trio, harp trio, or 3 players performing on wine glasses, untuned metal bars, or other resonant objects. It can be different with each performance.

SECTIONS:

All sections are 6 or 12 measure patterns and can be repeated or ignored to suit the performance, depending on preference/duration, etc.. For instance, one performance can just include Section A & B for 5 minutes and nothing else

RHYTHMS:

The rhythms are all based on a three measure pattern  which, when in canon, provides an interlocking rhythm, and the key to understanding the piece.

PITCHES:

Performers can choose to be completely aleatoric with the pitches or they can decide ahead of time on a certain pitch set before each performance if they wish. For instance, they can decide to choose any scale or chord and stick to only those notes for the whole performance.

Some suggestions for pitch material:

- **C.A.G.E.** just using those notes (i.e. an Am7 or C6 chord), in honour of John Cage
- **Whole Tone** (C, D, E, F#, G#, Bb) or switch back and forth between both whole tone scales
- **Symmetrical Augmented Scale** (C, D#, E, G, Ab, B)
- **Black Notes** (i.e. F#, G#, A#, C#, D#)
- **White Notes** (i.e. A, B, C, D, E, F, G) or switch back and forth between white and black
- **Open Strings and Natural Harmonics** (i.e. for string trio or guitar trio where they limit the notes to only open strings and natural harmonics, played pizzicato, possibly even a different open string for each section)
- **Minor Harmonic** (C, D, Eb, F, G, Ab, B)
- **Chromatic** (i.e. any chromatic note)
- **Microtonal**
- **Non-pitched** (any object or instrument part that doesn't make a recognizable pitch such as wood, tuned or untuned wine glasses, or resonant metal objects, as long as there are enough different colours to change tone frequently)
- **Variable** (i.e. changing at each new section or even each performer choosing their own pitch set 'language')

For example:

Section B could sound like this (if 3 vibraphones played C harmonic minor)

A musical score for three vibraphones. Each part is written on a single staff in treble clef. The key signature has one flat (B-flat). The music consists of six measures of eighth-note patterns. The first three measures feature a rhythmic pattern of eighth notes with accents and slurs. The last three measures feature a more complex rhythmic pattern with accents and slurs. The parts are staggered in time, with the top part starting first, followed by the middle and then the bottom part.

Section E could sound like this (if 3 glockenspiel played a C Symmetrical Augmented scale)

A musical score for three glockenspiels. Each part is written on a single staff in treble clef. The key signature has one sharp (F-sharp). The music consists of six measures of eighth-note patterns. The first three measures feature a rhythmic pattern of eighth notes with accents and slurs. The last three measures feature a more complex rhythmic pattern with accents and slurs. The parts are staggered in time, with the top part starting first, followed by the middle and then the bottom part.

Section F could sound like this (if a string trio played Open Strings and Harmonics)

A musical score for a string trio (Violin, Viola, and Violoncello). Each part is written on a single staff. The Violin part is in treble clef, the Viola part is in alto clef, and the Violoncello part is in bass clef. The music consists of six measures of eighth-note patterns. The first three measures feature a rhythmic pattern of eighth notes with accents and slurs. The last three measures feature a more complex rhythmic pattern with accents and slurs. The parts are staggered in time, with the top part starting first, followed by the middle and then the bottom part.

Section I could sound like this (if 3 marimbas played on black notes only)

A musical score for three marimbas. Each part is written on a single staff in treble clef. The key signature has two sharps (D major). The music consists of six measures of eighth-note patterns. The first three measures feature a rhythmic pattern of eighth notes with accents and slurs. The last three measures feature a more complex rhythmic pattern with accents and slurs. The parts are staggered in time, with the top part starting first, followed by the middle and then the bottom part.

Section K could sound like this (if 3 harps played a Whole Tone Scale C, D, E, F#, Gb, Ab, Bb)

A musical score for three harps. Each part is written on a single staff in treble clef. The key signature has two sharps (D major). The music consists of six measures of eighth-note patterns. The first three measures feature a rhythmic pattern of eighth notes with accents and slurs. The last three measures feature a more complex rhythmic pattern with accents and slurs. The parts are staggered in time, with the top part starting first, followed by the middle and then the bottom part.

63

67 **J** CHANGE tone now on EVERY SINGLE NOTE

Musical score for exercise J, measures 67-72. Three staves (P1, P2, P3) show a sequence of notes with slurs. The instruction "CHANGE tone now on EVERY SINGLE NOTE" is written above each staff. The dynamic marking "mf" is present at the start of each staff.

73 **K** CHANGE tone on EVERY SINGLE NOTE

8-12X

Musical score for exercise K, measures 73-78. Three staves (P1, P2, P3) show a sequence of notes with slurs. The instruction "CHANGE tone on EVERY SINGLE NOTE" is written above each staff. The dynamic marking "mf" is present at the start of each staff.

79 **L** Continuing changing tone on every single note, while slowly fading out

Musical score for exercise L, measures 79-84. Three staves (P1, P2, P3) show a sequence of notes with slurs. The instruction "Continuing changing tone on every single note, while slowly fading out" is written above each staff. The dynamic marking "mp" is present at the start of each staff.

85

Musical score for exercise L, measures 85-90. Three staves (P1, P2, P3) show a sequence of notes with slurs. The dynamic markings "p", "pp", and "ppp" are indicated at the start and end of the exercise.
